UAC Early Bird Processing Deadline Approaching

30 September

For anyone wanting to apply for undergraduate study in 2025, we encourage you to complete and pay for your application before midnight on **30 September**, when the processing charge increases. Once you've applied, you can change your preferences as many times as you like, no charge!

Pathways to Your Dream Degree

Applying for uni next year but worried that you won't meet the ATAR requirements for your dream degree? Most institutions offer pathway options for applicants who don't meet the standard entry criteria for their courses. Often, you'll be able to find a different avenue into the course you're aiming for.

If you don't get an offer into your chosen degree because you haven't met the required lowest selection rank, you could start an alternative undergraduate course with a lower entry rank. Once you've successfully completed the first year of that degree, and have results that will improve your selection rank, you can then apply again for the degree you really want. (See how to transfer to a different degree.)

Macquarie University Webinar For Parents

14 October

Helping parents support their teens to cope with Year 11 and 12 study stress webinar.

Throughout this webinar Dr Jessica Belcher will draw on current research to discuss why students feel stressed, what stress might look like, and when parents need to worry about their teen's stress. Jessica will also give some helpful tips on what parents can do to help their teen manage stress throughout their final years of high school.

New double degree at Macquarie Uni – Bachelor of Criminology and Bachelor of Laws

Macquarie's brand-new Bachelor of Criminology can be paired with the Bachelor of Laws to create a powerful double degree. Students will study the four key dimensions of modern criminology and become a highly capable legal mind. The Bachelor of Criminology and Bachelor of Laws has a selection rank of 96 and is 5 years full-time.

University of Sydney HSC Consultations for students in Society and Culture and Aboriginal Studies

Expression of Interest open in October

The Faculty of Arts and Social Sciences has proudly established the HSC Society and Culture Personal Interest Project (PIP) and the HSC Aboriginal Studies Major Project consultation programs to assist students with their research projects. In these programs, our academic staff and students facilitate consultations to support HSC students to enhance their analytical skills, provide guidance and feedback in topic selection, and key principles in conducting ethical research.

Closing Soon - University of Sydney - Single Scholarship Application Form

30 September

Must have the University of Sydney in your UAC preferences by 30th September We're dedicated to supporting your students throughout their time at university. We offer a wide variety of scholarships for domestic undergraduate students. To make the process easier, we've created a centralised form where students can be considered from a pool of \$1.5 million worth of scholarships through one simple application. To be eligible for scholarships via this form, current Year 12 students must complete the form and have a University of Sydney course in their UAC preferences by 29 September.

<https://www.sydney.edu.au/scholarships/domestic/bachelors-honours/domestic-undergraduate-scholarships.html>

University of Sydney Biology, Chemistry, Physics & Mathematics Bridging Courses

Bridging courses are open to everyone. You don't need to be commencing study at the University to register for a bridging course.

The bridging courses run in January/February and registration is now open.

If you do not have the assumed knowledge for your course, we strongly recommend that you undertake bridging studies. Otherwise, you might find it difficult to manage the work, as your lecturer will assume you are familiar with this area of study. Bridging courses are also useful if you struggled with the subject in high school, or need a refresher. Bridging courses do not provide you with enrolment qualifications or satisfy prerequisites for degrees within the University of Sydney

University of Sydney ARTiculate Drama | Giving shape to the world of a play: Getting started with set design

7 November

Theatre, above all, is a spatial artform. It's about defining the relationship and energy flow between audience and performer; it's putting ideas into space; it's finding a physical form to convey the emotional landscape of a play. In this webinar, we are delighted to host award-winning set and costume designer, Isabel Hudson, who will be in conversation with Dr Paul Dwyer from the Discipline of Theatre and Performance Studies. We'll look at a couple of Isabel's beautiful finished designs, analysing key steps in the process through which they were developed and how they support the overall vision of the play. Then we'll talk about perhaps the hardest part: how do you even begin? What should you be looking for on the first read of whatever play you select from the HSC Drama prescribed texts? How do you find those first few sparks of a concept/vision? How do you stretch and test your ideas with the goal of executing a design that's original, inventive, coherent and practical? While our focus is on set design, the underlying principles are, of course, also directly relevant to other HSC Drama Individual Projects in Design (e.g. costume and lighting) and Critical Analysis (e.g. director's folio and portfolio of theatre criticism).

University of Notre Dame Young Achievers Early Offer Program

Applications for Round 3 close 26 September

Applications for Round 4 close 4 December

If you're a Year 12 student completing the ATAR pathway, this program could be just what you need to secure a place at a University that values your growth as a person, not just your academic achievements.

The Young Achievers Early Offer Program at Notre Dame provides Year 12 students with a chance to secure a place at the university before the main round of offers.

If you have completed an ATAR pathway in years 11 and 12 and are on track to receive an ATAR and WACE/HSC certificate (or equivalent) upon finishing your studies, the Early Offer program is an excellent opportunity for you to feel confident as you work towards your final exams.

<https://www.notredame.edu.au/study/applications-and-admissions/pathways/early-offer>

CQ University Principals Recommendation Scheme

Closes 2 December

Our Principal's Recommendation Scheme (PRS) provides an early entry pathway for Year 12 students to apply to an undergraduate CQU course based on their high school principal's recommendation rather than ATAR.

Students can receive an offer within 48 hours of submitting their application - without waiting for their Year 12 results.

Open to all Year 12 students; the Scheme is designed to assist capable students to access entry to CQUniversity; it in no way provides relaxation of the quality and academic standards that students must meet to complete their degree successfully.

UTAS' Schools Recommendation Program

Final Round Applications close 4 October

Together with your schools, we've introduced a program to help year 12 students get ahead. This allows you to apply early for our range of exciting, diverse courses. It also means that you'll receive your offers much earlier in the year.

Applications for the Schools Recommendation Program for 2024 are now open. Keep reading to learn more!

Applications Closing Soon - UNSW Indigenous Preparatory Programs (Pre-Programs)

Closes 30 September

UNSW's Indigenous Pre-Programs offer a holistic pre-entry university experience for Aboriginal and Torres Strait Islander students without the need for an ATAR. Our programs are both an alternative entry pathway to UNSW and a degree-specific preparatory program, meaning you can hit the ground running on day one of your degree.

The Indigenous Pre-Programs is a three-week intensive residential program held at UNSW's Kensington campus in Sydney. The pathway program is delivered by Nura Gili in partnership with UNSW faculties and schools in the areas of Business, Education, Law, Medicine, Social Work, or Science & Engineering. We run Indigenous Pre-Programs in the areas of Business, Education, Law, Medicine, Social Work, or Science & Engineering.

UCAT Early Interview Training

Every year we meet a lot of students expressing their regret and disappointment for leaving Interview preparation until the actual period when the interview offers are made. The big issue with this is that quite often there is simply not enough time for adequate preparation between the time when the interview offers are made and the actual interview date.

Just as with the UCAT, we cannot stress enough that students cannot underestimate the medical interview or take it too lightly. Furthermore, it is a highly competitive forum where the student will be assessed against other candidates who have not only aimed as hard to achieve their goals but are also just as sincere and strong-minded in their desire to be interviewed successfully.

AIE Industry Experience Day

2 October

AIE's Industry Experience Day is a great opportunity for students in Years 10, 11 and 12 to learn about the local and international game development, 3D animation and visual effects industries. Students will get the opportunity to learn about the different pathways to get into the industry, what should be in a portfolio and will be able to get creative in practical workshops using industry-standard 3D animation and game development tools.

The sessions are run by industry professionals who have worked on some blockbuster games and films. Everything is provided for you to participate in the hands-on workshops and you will be using the same software that is used in the industry.

If you are thinking about a career in the games or film industry then we highly recommend registering for this free event. We are limiting numbers for this event due to physical distancing requirements, with Year 12 students having priority to register.

AIE Film Production Workshop

4 October

Learn what it takes to plan and produce a film shoot in this intensive film production workshop. You will get hands-on with cameras, lighting, and the latest in virtual production LED screens. Industry-experienced filmmakers will guide you in taking your script through the various production stages.

In this workshop, we will fast-track the film production process by choosing one scene and taking it through the pipeline from idea to finished shots. As part of this process, participants will be leveraging virtual production sets! This is an exclusive opportunity to learn more about this revolutionary technology which is empowering filmmakers.

This workshop is suited to participants 16 years+ that are interested in learning more about film, working in film crews and developing their own short films.
