

## Student Health Condition Support

While the main role of the school is to provide education, we want to work with you to keep your child healthy and safe at school.

If your child has a health condition which may require support at school or when involved in school activities, please complete the following forms on the basis of information provided by your medical practitioner and return them to the front office with your medication in a [Webster Pack](#).

These forms include sections where you can request the administration of prescribed medication and/or other assistance.

- [Request for support at school of a student's health condition](#)
- [Individual Health Care Plan](#)

When we receive your request for support, we will discuss and communicate this with the relevant staff and teachers.

Please advise the school at any time if there are changes in the information about your child's health care needs.

Regards

Sonja Anderson  
Principal
